Key Insight:

Sales grew 20.4% in 2017 but profit grew only 14.2%, showing profit is no longer scaling with revenue.

Risk:

Tables, Bookcases, and a cluster of states (Texas, Ohio, Pennsylvania, Illinois) are actively losing money despite steady sales, driven largely by heavy discounting.

Opportunity:

Technology, especially Copiers, with a 37% profit margin is underweighted relative to its profitability and is the clearest area to grow.
